

Mystic Seaport for Educators
Science on the 38th Voyage of the *Charles W. Morgan*
Lesson 2 of 6: Eavesdropping on Echolocation
Student Worksheet

Name: _____

Questions:

1. Listen to the following recordings. List the source and describe what you hear.

	Source	Description of Sound
1		
2		
3		

2. Whales use sound for hunting, communication, and navigation. In fact, some scientists believe that noise-detection is much more developed in marine mammals than in humans. Why might sound, rather than visual cues, be a particularly important sense in the underwater environment?
